PROJECTS

Task Pilot

October 2024 – December 2024

- Built a task management web app for creating, assigning, and tracking tasks with deadlines and descriptions.
- Integrated Gmail API for automated email reminders, improving task follow-ups by 25%.
- Designed a responsive and user-friendly UI with React.js and CSS, reducing task assignment time by 40%.
- Technologies:** CSS, JavaScript, React.js, MongoDB, Express

N-Knight Visualizer (DSA Project)

April 2024 – May 2024

- Created an interactive N-Knight visualizer to help users understand the backtracking algorithm.
- Enhanced performance by reducing render lag by 50% through efficient state management and animations.
- Enabled user customization of the board size (N), boosting session engagement by 3 minutes on average.
- Technologies:** React.js, JavaScript

Coffee Chain Dashboard

April 2024 – May 2024

- Engineered an interactive Tableau dashboard to provide real-time business insights across 5 regions.
- Streamlined reporting by integrating Excel data with Tableau Prep, cutting data preparation time by 50%.
- Enhanced decision-making accuracy and sales forecasting by 35%, contributing to a 20% improvement in regional strategy execution.
- Technologies:** Tableau, Excel, Tableau Prep

Hungry Man

February 2024 – March 2024

- Built a mobile-friendly restaurant ordering site prototype using HTML, CSS, and JavaScript.
- Optimized site performance through media queries, lazy loading, and asset compression, reducing page load time by 30%.
- Achieved a 90% user satisfaction rate based on usability testing and design iteration feedback.
- Technologies:** HTML, CSS, JavaScript

SKILLS

Programming Languages: C++, Java, C, JavaScript, Python, R

Web Development Frameworks: React.js, Node.js, Express

Database Management: MySQL, MongoDB

Tools & Platforms: Tableau, Microsoft Excel, RStudio, Git, GitHub, Tailwind, PowerBI, Numpy, Pandas

Machine Learning: Supervised Learning

Core Competencies: Led a team of four to develop a AI/ML model, streamlined communication with stakeholders, and managed project deadlines.

CERTIFICATIONS/CERTIFICATES

Cloud Computing - NPTEL

August 2024 – November 2024

Data Analysis with Tableau – Coursera

August 2024 – September 2024

Python, Data Science, and Machine Learning - Cipher School

June 2024 – July 2024

Excel Skills for Business – Coursera

January 2024 – March 2024

ACHIEVEMENTS

- Secured Global Rank Under 300 Among 28k+ Participants.
- Solved 500+ Problems Across various competitive programming platforms honing algorithmic and coding expertise.

EDUCATION

Lovely Professional University

Punjab, India

Bachelor of Technology - Computer Science and Engineering; CGPA: 8.34

August 2022 – Present

- Notable Courses: Object Oriented Programming, Data Structures, Analysis Of Algorithms, Data Science

Kendriya Vidyalaya

Bareilly, Uttar Pradesh

Senior Secondary School; Percentage: 84.6%

April 2021 – June 2022

- Key Focus: Physics, Chemistry, Mathematics, Computer Science
